

Big revision 1 - Population

1. Define the term demography.
2. Describe the distribution of population according to the map.
3. Where do people normally live?
4. What are main disadvantaged areas according to population distribution?
5. Define the term population density.
6. On the map of the world show 3 major regions and other smaller areas of high population density.
7. Give 3 examples of countries of the highest and the lowest population density and show them on the map of the world.
8. Define the term population growth and population increase/decrease.
9. Which regions of the world experience the highest/lowest population growth rate?
10. What about population growth rate in Slovakia? Is it decreasing or increasing? Why?
11. Will the natural resources of the planet be able to feed all the population?
12. What are some effects of rapidly growing population?
13. Explain the term overpopulation and give some examples.
14. Draw and describe the DTM.
15. Explain the difference between fertility rate and mortality rate.
16. What are some examples of factors influencing fertility and mortality in the world.
17. Give 5 examples of different criteria (aspects) by which we can analyse the structure of a population.
18. Explain the structure of population by gender (sex).
19. Describe gender inequalities in countries of the world.
20. Explain the world pattern of age structure of population and describe 3 main models of population pyramids.
21. Explain the structure of population by race.
22. Describe the structure of population by religion.
23. Describe the structure of population by nationality.
24. Describe the structure of population by language.
25. Explain the world pattern of literacy rate among the people.
26. Define the term migration.
27. Give 3 main types of migration.
28. Explain the difference between push and pull factors and give examples of them.
29. In Your own words describe migration within Slovakia.
30. In Your own words explain why we, the government, should control the population growth.
31. What are the most common instruments to decrease the population growth rate?
32. Describe 2 different management approaches to population control.
33. Explain who are the refugees.
34. Give 3 examples of push factors which force people to leave their home country.
35. On the map of the world show 3 regions affected by refugee crisis.
